4	On page no. 178 point no. 28 (Regarding transportation vehicle) - there is no clearly mentioned that how many number of vehicles will be needed at site in a single day. Please clarify.	There will be 3 teams in different areas and each team will be equipped with one ERV on round the clock basis. Hence 3 vehicle required for 3 teams on 24X7 hours for 365 days.
5	On page no. 179, point no. 35, (regarding domestic & geyser connections) - there is indication that contractor should do gas geyser connections / domestic connections. But not proper or tentative number is mentioned regarding this as well as there is no SOR code for the same. We mean, we have to do this from our salaried employees or as per quantity? Please clarify.	Gas geyser connections & domestic connections annual integrity check (Audit / AMC - 1500 nos. per month) has to done by a separate team for which SOR is there.
