

Technical Specifications for Automatic Vending Machine(AVM)

Construction

Material	Steel
No of Product selections	45
Item Dispense	Wafers, Namkin, Biscuit Packs, Candy Bars, Tetra Packs, Cold Drinks, Any Ready to Eat Snacks
Product Holding Capacity	355
Metal Enclosure	1.6mm MS-Powder Coated

Dimension

Weight (Approx.)	285 kilograms
Depth	790 millimetres
Width	822 millimetres
Height	1940 millimetres

Refrigeration

Refrigeration Temperature	4 to 25 C
----------------------------------	-----------

Interface

Advertisement	Full Double Layers Vacuum Toughened Glass Front Door with White LED lighting for better visibility and showcasing the available products
User Interface	10inch Touch Screen for product selection and Machine Interaction with Advertising ability
All report logs	Available through password protected Settings Menu for viewing.

Power

Power Consumption	580 Watt
Frequency of Power Supply	50 Hertz
Power Supply	230 Volt

Protocol System

Protocol	MDB
----------	-----

Operating Environment

Operating Environment	Ambient
-----------------------	---------

Generic

Warranty	1 year
Colour	Multicolour

Type of Packaging

Packaging	Wooden
